## A Celebration of Philanthropic Partnerships Across Iowa

**“Remarkable”...“Amazing to see the breadth of grants being done throughout the state”...“Applause to the legislators for their foresight to create this program to be a catalyst for philanthropic investment”...**

*These are just some of the comments Iowans have made to tout the annual County Endowment Fund Program. Now in its 10th year, the program was created by some forward thinking Iowa legislators who understood the impact of philanthropy on our state. It is funded through a percentage of the commercial casinos' gaming tax revenues and has created a strong community foundation infrastructure in the 85 counties that do not hold a state-issued gaming license.*

*This report shows the past year's success with a summary of each county's efforts to make our state an even better place to live, work, and raise their families. It also features a review of the grant making by each of the non-profit license sponsors located in the 14 counties with a casino.*

*Collectively, this support for charitable projects/programs happening across Iowa nurtures philanthropic partnerships between organizations, individuals, and communities for the good of our state. While individual partnerships may cover a diverse range of focus areas - from support for the arts to education to preserving history to protecting our rural environments – the shared vision is around making Iowa a great place to live, work, raise a family, and retire. It is exciting to see Iowans come together to build an even brighter future for all. We think that's something to celebrate!*

*We hope you enjoy seeing the many meaningful grants listed and will share this information with others.*

## The County Endowment Fund Program (HF 2302)

*The state of Iowa is unique in that it has two legislated programs focused on increasing philanthropic activity to enhance the quality of life for Iowans. Both programs, the Endow Iowa Tax Credit Program and the County Endowment Fund Program, are implemented through local community foundations.*

*Created in 2004, the County Endowment Fund (HF 2302) program is funded by a percentage of the state's commercial gaming tax revenue. Initially, the amount was one half of one percent (0.5%) of the gaming tax revenue; this was increased to eight-tenths of one percent (0.8%) in 2006. These funds are distributed annually to participating community foundations and affiliate community foundations associated with counties without a state-issued gaming license.*

### What Is a Community Foundation?

Community foundations are tax-exempt, nonprofit organizations established to meet the current and future needs of local communities. They are trusted and valuable resources for individuals, families, businesses, nonprofit organizations, and professional advisors working to build local philanthropy, with a focus on creating endowments for the long-term benefit of charitable projects and programs. Community foundations provide grant support for a broad range of community needs such as arts and culture, health, human services, and historic preservation. Because a community foundation carries the status of a publicly supported nonprofit, it also grows assets through contributions from many donors. A community foundation often has numerous funds as part of its total assets. Scholarship funds, agency endowment funds and donor-advised funds all allow donors to make a charitable impact in the area of interest to them. Collectively, nearly 1,500 Iowans volunteer their time and energy in the community foundation movement in Iowa.

An affiliate community foundation is a component of a community foundation that is, by the most simple definition, a fund or collective of funds that is advised by a group of leaders in a specific geographic area. For example, there may be eight community leaders in XYZ County who advise grants from a charitable fund and rely on a "host" community foundation to be responsible for all of the administrative requirements of those charitable funds. Most commonly in Iowa, community foundations that have affiliate funds approach the administration of those funds similar to administering an entire community foundation, but as a component of the larger, host community foundation. These funds are then monitored in some way by a local collective of people from the geographic area being served. (For more information about Endow Iowa and a timeline of key dates in the history of both programs, visit [www.iowacommunityfoundations.org](http://www.iowacommunityfoundations.org).)

## How the County Endowment Funds Are Used

The County Endowment Fund Program stipulates that the countywide community foundations that participate in the program distribute 75% of the allocated funds to charitable projects/programs within their counties. The remaining 25% is used to build the unrestricted endowment fund for that county to provide future grant support.

Community foundation grantmaking is done at the local level. Each county develops its grant distribution processes and involves local citizens to review and allocate funding to charitable projects/programs that impact a broad range of a community's well-being. Because of this local involvement, grant awards vary from year to year,

based on current and emerging needs. Each of the 85 counties that participated in this program submitted reports to the Iowa Council of Foundations and the Iowa Economic Development Authority. These reports outline the grant award recipients and provide additional information about the community foundations; the results are outlined on pages 8 – 50.

In their reports, the counties outlined grant award recipients using a common listing to categorize each grant as either program- or capital-based, with a particular focus on one of seven categories. The chart below serves as a key for the grants outlined in each of the county reports.

### Grant Categorization

**Program-based:** operational, activity, general programmatic support

**Capital-based:** the building of or physical improvement of something

### Focus Area

**Arts/Culture/Humanities:** museums, historic preservation, exhibits, etc.

**Education:** schools – all ages, adult learning programs, etc.

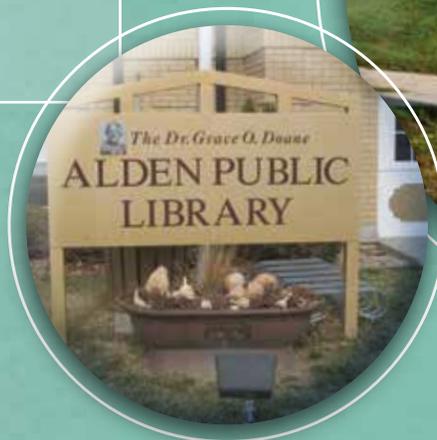

**Environment/Animals:** environmental protection, beautification, animal-related issues

**Health:** general, rehabilitative, mental, etc.

**Human Services:** public protection/safety, recreation, youth development, social support, general human services

**Community/Public/Society Benefit:** community improvement/development, philanthropy/volunteerism, capacity building, civil rights, etc.

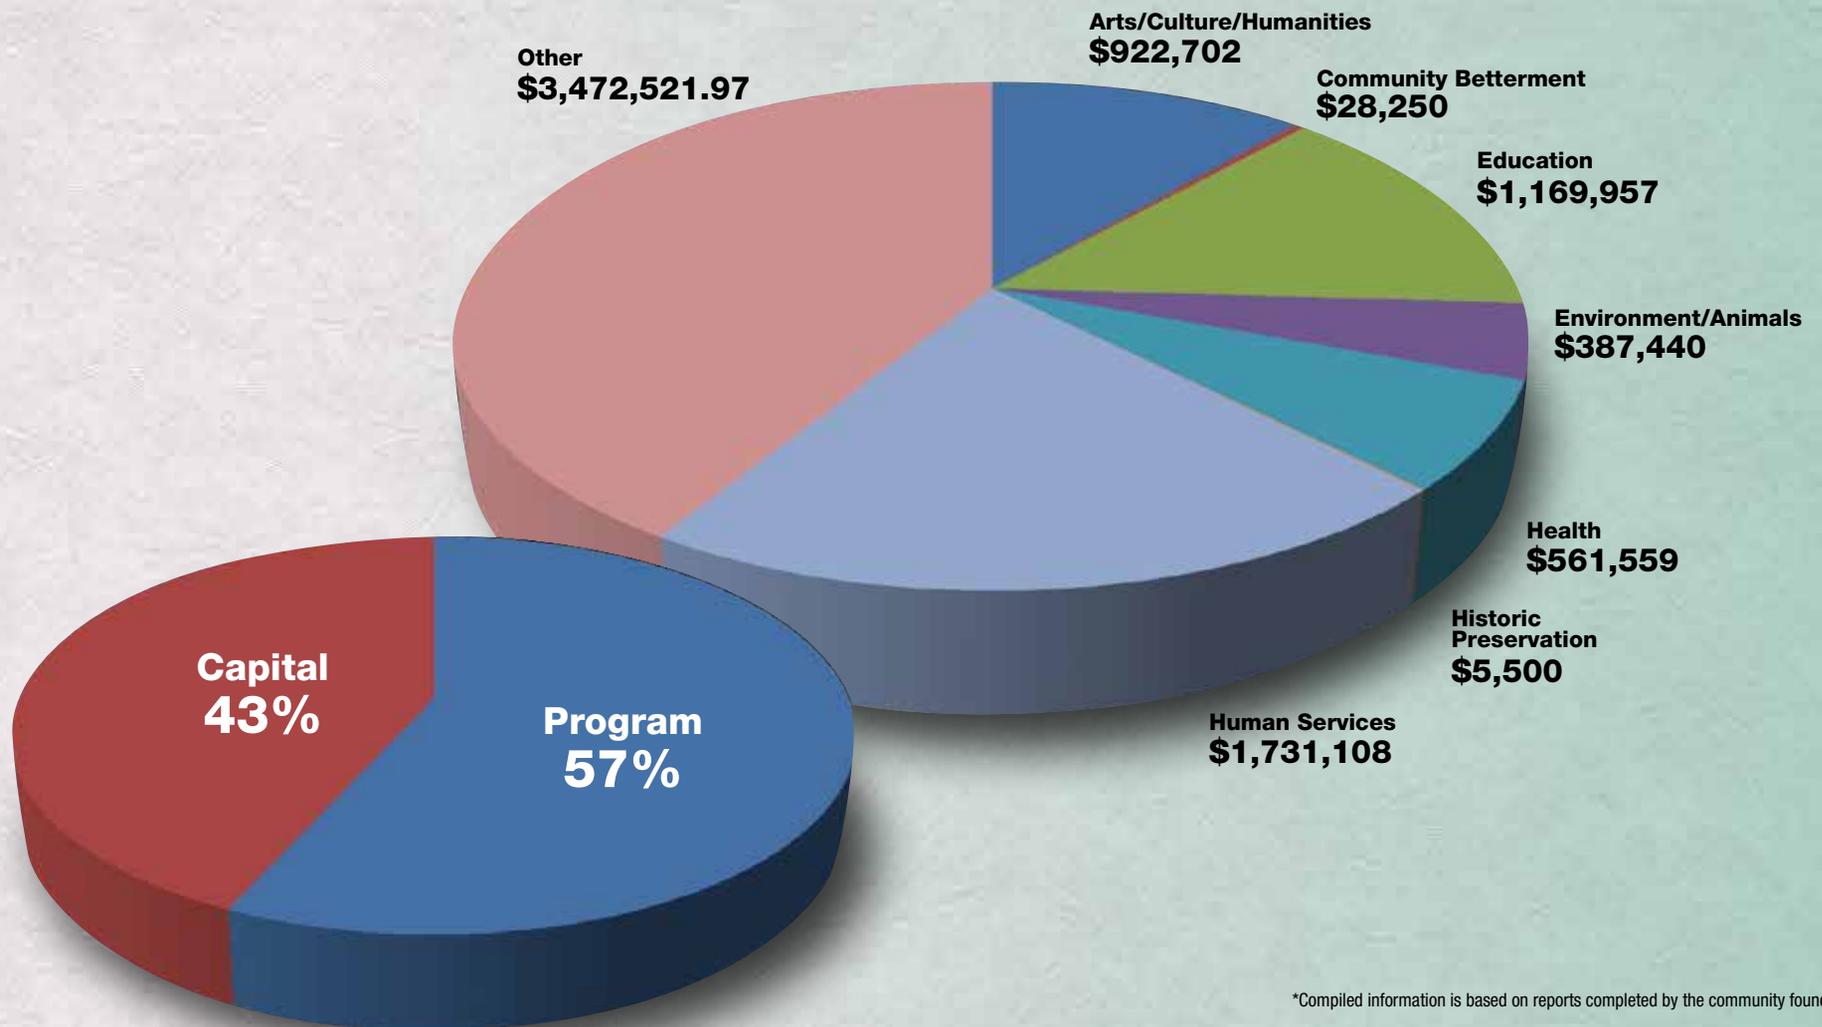

**Other**

## Statewide Statistics on the Program

*The eighth year of the County Endowment Fund Program resulted in over 2,144 grant awards totaling \$8,279,041 throughout Iowa. These awards were made after careful review of applicants in each of the 85 counties. Collectively, the program generated nearly 2,971 grant applications seeking funding of \$17,655,961 for a wide range of needs.\**

In analyzing the reports, the counties identified 43% of total grants were to capital-based initiatives and 57% were focused on program aspects of projects.

\*Compiled information is based on reports completed by the community foundations.

## Casinos' Nonprofit Organizations Provide Millions of Dollars in Grants Annually

*Each of the 18 commercial casinos located in 14 Iowa counties is required to share its license with a Qualified Sponsoring Organization or operate as a non profit entity. These nonprofit license holders receive a certain portion from their respective casino's gaming revenue and annually reinvest in numerous charitable and civic needs. Thousands of grant applications are received each year to be scored by the respective board of directors, who then award millions of dollars annually to a diverse array of community and charitable causes.*

*You will see that their primary areas of emphasis vary based on what will best benefit their areas. Categories include:*

***Parks and Recreation***

***Public Safety***

***Cultural and Historical Attractions***

***Human Services***

***Education***

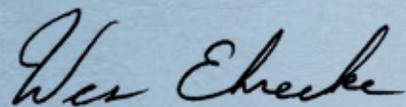

***Economic and Community Development***

***Youth***

***Environmental***

***Churches and Patriotism***

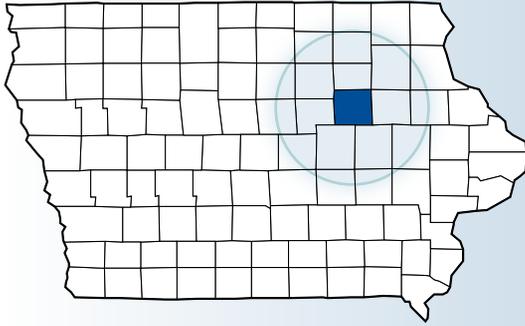

*I encourage you to visit the Iowa Gaming Association website at [www.iowagaming.org](http://www.iowagaming.org), and click on "Our Members/License Holders" to find applications, guidelines and archives of each of their recent years' grant distributions.*

**Education**  
**Health & Human Services**

**Summary of Primary Emphasis:** The DRA intends for all funds to be used by area non-profit organizations to support the community in which they operate. If the proposed project/program does not benefit area residents, it must be indicated exactly who will benefit and their location.

Applicants must be non-profit, tax-exempt organizations that have received 501(c)(3) or 501(c)(4) designation from the Internal Revenue Service or must be a unit of political subdivision (e.g., Conservation Districts). Organizations are not allowed to “share” or “borrow” a 501(c)(3) status with another organization. The name on the application must match the name on the IRS-issued letter. Only one application per 501(c)(3) or equivalent tax-exempt status will be accepted.

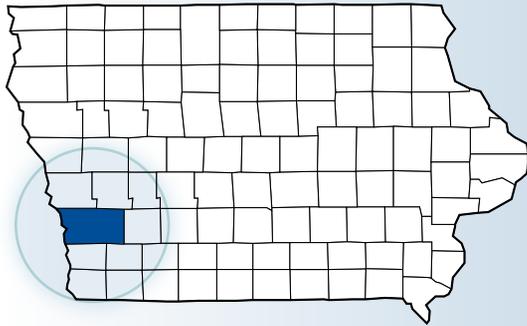

Individual schools, churches, or volunteer fire departments will not need a 501(c)(3) letter. They are either exempted by law or fall under a blanket exemption because of their ties to a municipality.

Cities/villages/towns/counties are allowed one application. A letter from the city/county administrator endorsing the project must be attached to the application.

Schools will be allowed two applications per “an attendance center.” Schools are tax exempt by statute but affiliated organization must hold a 501(c)(3) in its own name (no sharing allowed).
